

Your finances at your fingertips

FreeAgent's mobile app and Open Banking technology give you a clear view of your cashflow, bank balances, tax deadlines and more at the touch of a button.

FreeAgent's easy-to-use app helps you:

- snap photos of your receipts and create expenses
- send and manage invoices
- track time on your phone and create timeslips
- get tax timeline notifications

A better way to work

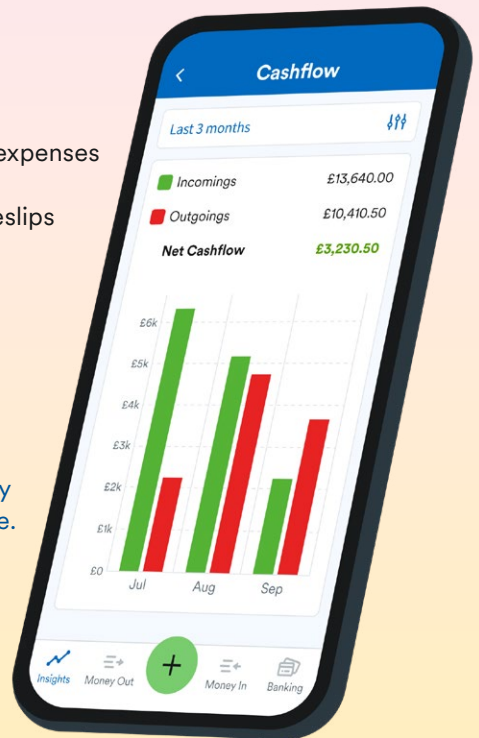

Once you set up your bank feed, your transactions will flow into your FreeAgent account automatically, making it easy for your accountant or bookkeeper to securely view your business figures from any device.

Let's get started

New to FreeAgent?

Speak to your accountant or bookkeeper about getting set up with a FreeAgent account.

Already have a FreeAgent account?

Download the FreeAgent mobile app from the iOS App Store or Google Play store and set up your bank feed. You're good to go!

“

I use the FreeAgent mobile app to scan all of my receipts as I go and then carry on with my day without having to worry about my expenses”

Chris Blunt, Plymouth Science
