Save time, prevent errors, unlock insights

- Each day, your Amazon sales, refunds and fees will flow into FreeAgent automatically. FreeAgent will then explain these to the appropriate accounting categories, saving you and your accountant hours of tedious admin.
- Uncover unique insights about how your business is performing and stay on top of your cashflow.
- Your accountant can file your Self Assessment and VAT returns directly from FreeAgent.

FreeAgent's Amazon integration is an easy-to-use and affordable option for small businesses to save time on admin. Unlike third-party alternatives, we only have one price, which lets you process up to 6,000 orders per month.

Get started

Already have a FreeAgent account?

You can activate the Amazon integration via the Connections and Add-ons page in your FreeAgent account.

You'll need to have an active Amazon seller account and be the FreeAgent account owner to connect.

New to FreeAgent?

Speak to your accountant or bookkeeper about setting up your FreeAgent account with Amazon.

Try it for free until 30th April 2024
